Division Chief of Integrative Biomedical Imaging Informatics at Stanford (IBIIS)

highheredjobs.com/search/details.cfm

Type: Full-Time
Salary: Associate Professor: $218,000 - $242,000 Professor: $266,000 - $366,000
Category: Other Science Faculty; +1 Diagnostic Imaging and Radiography

Work type: Non-Tenure Line (Research), University Tenure Line
Categories: School of Medicine

The Department of Radiology at Stanford School of Medicine is searching for a Division Chief of Integrative Biomedical Imaging Informatics at Stanford (IBIIS). This full-time appointment will be in the University Tenure Line or Non-Tenure Line (Research) at the Associate or Full Professor rank. The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching. The major criterion for appointment for faculty in the Non-Tenure Line (Research) is evidence of high-level performance as a researcher for whose special knowledge a programmatic need exists. Faculty rank and line will be determined by the qualifications and experience of the successful candidate.

IBIIS faculty focus on pioneering, translating, teaching and disseminating Artificial Intelligence and other methods in data science that integrate imaging, clinical, and -omics data to better understand the molecular mechanisms of diseases and to improve the

accuracy and efficiency of clinical care. In addition to contributions in their own specific research areas, the Division Chief of IBIIS will be responsible for the research and teaching activities of the Division. The ideal candidate will have demonstrated scholarly achievement in her/his area of expertise, have mentored junior faculty, demonstrated teaching excellence, and have a significant track-record with NIH, industrial, and/or other funding. Exceptional leadership and administrative skills are also required.

The qualified candidate will have a PhD and/or MD and/or equivalent degree with a background in computer science, engineering, physics, biomedical informatics, data science, imaging science, or another related field. We seek motivated individuals who are committed not only to excellence in research, but also to training the next generation of researchers.

Please apply online at [url here] by submitting your curriculum vitae and a candidate statement (no longer than 3 pages) describing your research, teaching, and administrative activities and interests. The Radiology Department, School of Medicine and Stanford University value faculty who will help foster an inclusive academic environment for colleagues, students, and staff with a wide range of backgrounds, identities, and outlooks. Candidates may choose to include as part of their research and teaching statements a brief discussion about how their work and experience will further these ideals. Additional information about Stanford's IDEAL initiative may be found here: https://ideal.stanford.edu/about-ideal.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching and clinical missions.

Salary Range:

The expected base pay range for this position is:

Associate Professor: $218,000 - $242,000
Professor: $266,000 - $366,000

This pay range reflects base pay, which is based on faculty rank and years in rank. It does not include all components of the School of Medicine's faculty compensation program or pay from participation in departmental incentive compensation programs. For more information about compensation and our wide-range of benefits, including housing assistance, please contact the hiring department.

Stanford University has provided a pay range representing its good faith estimate of what the university reasonably expects to pay for the position. The pay offered to the selected candidate will be determined based on factors including (but not limited to) the experience and qualifications of the selected candidate including equivalent years in rank, training, and field or discipline; internal equity; and external market pay for comparable jobs.

Please reach out to Stanford Radiology Faculty Affairs with any questions at radfacultyaffairs@stanford.edu.
