Posted: 4 days ago
Application Due: Open Until Filled
Category: Instructional Technology and Design
Priority
Purdue University Fort Wayne is currently seeking a full-time, onsite Lead Instructional Designer of Artificial Intelligence in the Center for the Enhancement of Learning and Teaching (CELT) department. The Lead Instructional Designer of AI collaborates with CELT staff and others across campus to lead the development and delivery of programming which assists individuals, departments, and other groups of faculties with course and learning activity design and development. Applications may be submitted here. Those received by February 1 will receive priority consideration.

Primary Responsibilities:

- Research the pedagogical application of existing and emerging AI tools.
- Research AI-related industry knowledge and skill needs of graduates (particularly in the NE Indiana region).
- Lead partnerships with and coaching of faculty and academic programs to implement pedagogical changes in response to those identified needs.
- Lead the development and delivery of AI-focused teaching resources, workshops, certificates, and cohort/grant programs related to (re)designing courses, activities, assessments, assignments, etc. with AI in mind, to improve student learning.
- Through consultation and workshops, assist faculty, broadly, with course design, course development, learning objectives, classroom management, active learning, assessment methods, educational technologies, and other topics related to university teaching.
- Serve as a PFW representative on Purdue System Educational Technology-related teams, pilots, etc.

Required Qualifications:

- Masters in Instructional Design, Learning Technologies, Curriculum and Instruction, Design & Technology, or related field. **Consideration of a Bachelor's Degree with significant experience in consulting with higher education faculty and the ability to create instructional materials using authoring tools and standard multimedia applications**
- 4 years of experience consulting with faculty about AI, teaching strategies, course design and development, and/or assessment.
- Knowledge of instructional design theory and practice, learning theories, best teaching practices, best practices in consulting, and pedagogical applications of a variety of AI tools.
- Fluency with one or more course management systems, such as Canvas, Blackboard, Brightspace, or others.
- Ability to create instructional materials using authoring tools and standard multimedia applications.

Benefits:

- Fee remission for a traditional Purdue degree for yourself, your spouse, and your child(ren).
- Free tuition through Purdue University Global.
- Insurance starts on first day of employment.
- Generous Paid Time Off – additional PTO in December.
- Additional benefit information: https://www.purdue.edu/hr/benewell/

Additional Information:

- Resumes and cover letters that contain portraits or personal information are not permitted.
- Purdue will not sponsor employment authorization for this position.
- A background check and misconduct screen will be required for employment in this position.
- Purdue Fort Wayne is an EEO/AA
